

AssangeDAO Development Draft

一、概述.

Overview

1、AssangeDAO 社区是以\$Justice 代币为基础介质建立的社区,社区能否繁荣,代币的流动性、价格占主要因素.

The AssangeDAO community is founded on the \$Justice token as its underlying medium. Whether the community can flourish depends chiefly on the token's liquidity and price.

2、社区最初以为 JulianAssange 恢复自由而成立,募集资金并为法律诉讼提供了最大能量的支持,社区成员也长期为 JulianAssange 的自由而提供了各种支援行动,第一个阶段的使命,已经完成.

The community was originally established to secure Julian Assange's freedom. It raised funds and provided the strongest possible support for his legal proceedings, and its members long offered various forms of assistance in the cause of his liberty. The mission of that first stage has now been accomplished.

3、JulianAssange 已经获得了自由,并开启新的生活.社区应设立更长期的愿景和使命.并围绕\$Justice 为主要介质载体的循环、流通、运行构建科学合理的代币经济机制,支撑社区新的使命达成、以及为随时欢迎 JulianAssange 先生加入社区建立良好的社区状态.

Mr Julian Assange has regained freedom and embarked on a new chapter in his life. The community should therefore establish a longer-term vision and mission, and develop a scientifically sound and rational tokenomics framework centred around the circulation, utilisation and operation of \$Justice as its primary medium and underlying vehicle. This framework should support the achievement of the community's new mission while also creating a strong and sustainable community environment that would be ready to welcome Mr Julian Assange to join the community at any time.

3、我们需要确保升级社区愿景和使命以及后续发展的过程中,国库资产具有升值空间、提高抵抗恶意提案的能力、符合 JulianAssange 先生的精神要义、同时兼顾持币人的权力与权益,让 DAO 在后续运行过程中焕发最大效率.

As we upgrade the community's vision and mission and shape its future development, we need to ensure that the Treasury's assets retain the potential for long-term appreciation, strengthen the DAO's resilience against malicious proposals, remain aligned with the principles and values embodied by Mr Julian Assange, safeguard the rights and interests of token holders, and enable the DAO to operate with maximum efficiency throughout its future development.

4、本文档基于社区当前现状,提出一份建议性、系统性的草案,以下每部分大章节内容,都可考虑独立发布提案,逐步或分阶段执行,或作为一项整体性提案一次投票完成决议,之后分阶段逐项执行.

This document sets out a proposed and systematic framework based on the community's current circumstances. Each major section below may be considered as a standalone proposal and implemented progressively or in stages, or the entire framework may be presented as a single comprehensive proposal for one community vote, with the approved measures subsequently implemented on a phased, item-by-item basis.

二、分阶段任务和提案

Phased Tasks and Proposals

提案-20: 社区新使命

AIP-20: New Mission of the DAO

1)前提: 社区的新使命,须以由\$Justice 代币提供驱动、承载能力作为基础前提条件, \$Justice 代币所能包含的含义、内涵和应用拓展空间是社区宝贵的财富之一,这是传统组织所不具有的能力和优势.

Premise: the community's new mission must rest on the premise that \$Justice provides both the driving force and the capacity to carry it. The meanings, substance and scope for further application that the \$Justice token can encompass are among the community's most valuable assets—a capacity and an advantage that conventional organisations do not possess.

2)建议: DAO 的诞生、成立,是 JulianAssange 先生本人意志的体现和亲自授权,我们期待、邀请、尊重 JulianAssange 先生本人的意愿表达; 或,我们建议社区成员在提议新使命时,尽量符合 JulianAssange 先生本人可能的愿景或意愿,尽量在更大维度和更大空间考虑可能性.比如,加密区块链行业的公允价值、安全边际、信用等;或,世界范围内的民生、公平、透明等普世价值观和行动范畴.

Recommendation: the DAO's founding was an expression of Mr Julian Assange's own will, and was undertaken with his personal authorisation. We welcome, invite and respect any advice or revision he may offer, at any time, as to the community's mission. We further suggest that, in proposing a new mission, members should align it as closely as possible with what Mr Julian Assange himself might envisage or wish, and should attend, so far as practicable, to fair value, margins of safety and credit within the cryptographic and blockchain sector, as well as to universal values and spheres of action such as public welfare, fairness and transparency worldwide.

3)待投决议选项(单选):

Proposed Resolution Options(single selection):

(1)AssangeDAO 的使命是成为 Julian Assange 的数字军队.

The mission of the AssangeDAO is to be Julian Assange's digital army.

(2)AssangeDAO 的使命是捍卫 Julian Assange 以及他所代表的价值观

The mission of the AssangeDAO is to defend Julian Assange and the values he stands for.

(3)AssangeDAO 的使命是与 Julian Assange 并肩站在一起，继续他的斗争。

The mission of the AssangeDAO is to stand with Julian Assange and carry his fight.

(4)AssangeDAO 的使命是为 Julian Assange 及其事业建立一个团结互助的支持网络。

The mission of the AssangeDAO is to inspire a solidarity network for Julian Assange and his cause.

提案-21:改善流动性

AIP-21: Improve liquidity

1)加密行业中使用国库资金改善流动性和社区筹码分布,是行业内非常普遍性的措施和主动积极管理手段。

Using treasury funds to improve liquidity and the distribution of community holdings is a very common measure in the cryptographic sector, and a proactive means of management.

2)当前,持币人对国库改善流动性池的期待非常高,普遍反映因为池子太浅,是限制社区壮大的主要因素。

At present, the holders have very high expectations that the treasury will improve the liquidity pool. It is widely felt that the shallowness of the pool is a factor holding the community back.

3)国库应趁当前币价低迷阶段,待社区批准后被批准申请额度内通过回购的方式持有尽量多的 Justice 代币,避免将来币价大幅上涨后,国库反而因持有太少而被动贬值。

The Treasury should take advantage of the current period of depressed token prices and, following community approval, use the approved allocation to acquire as many \$Justice tokens as reasonably possible through buybacks. This is intended to avoid the Treasury being disadvantaged in the future by holding too few \$Justice tokens and thereby becoming exposed to greater dilution or loss of value should the token price rise significantly.

4)我们是一个加密代币支撑运行的社区,不是任何类型传统社会 NGO 组织,也不是上市股份公司.社区运行的主要介质载体和与其他同行交互、合作的主要途径,必须是\$Justice 代币,而非ETH 或任何其它代币.当前,国库中储存的\$Justice 代币在总体供应量所占比例非常低,在改善流动性的行动中,国库可以实现积累尽量可能多的代币,彰显社区发展的意志,也为后续社区治理、产品应用中的风险抵抗能力,提供足够库存,守护社区后续愿景或使命的安全边际。

We are a community run on a cryptographic token, not a conventional NGO and not a listed company. \$Justice, not ETH or any other token, must be the medium through which we operate and the principal means by which we deal with our peers.

The treasury's present holding of \$Justice is a very small share of total supply. Improving liquidity gives it the chance to accumulate a far larger position: a clear statement of intent, a reserve for governance and for the risks of future products, and a margin of safety for whatever vision or mission the community adopts next.

5)国库资金用来为社区改善流动性同时,也会获得持续可观代币收入,支撑社区实现长期愿景和使命的过程中,各项业务运营、产品开发的实现.

Treasury funds will be used to improve liquidity for the community while also generating a steady and substantial stream of token revenue, thereby supporting the long-term realisation of the community's vision and mission, as well as the ongoing operation of its various initiatives and the development of its products.

6)国库资金加入流动性池,不承担、不代表或任何暗示任何币价和市值的涨跌,不对任何个人在公开市场的投资交易行为承担任何风险和责任,多签人员在非紧急重要时刻,不可随时退出流动性池或重新加入质押的执行权限(只有当交易对手方平台面临安全性风险时且必须事后公示并说明原因,除此之外,只有当社区需动用池子中资金且被社区投票批准后才可执行退出).

Treasury funds contributed to the liquidity pool shall not assume, constitute, or in any way imply any responsibility for fluctuations in the token price or market capitalisation, nor shall the Treasury bear any risk or liability arising from any individual's investment or trading activities in the public market. Except in an emergency or other critical situation, the multisig signatories shall not have the authority to withdraw funds from or re-enter the liquidity pool or staking position at their discretion. Such authority may only be exercised where the counterparty platform is facing a security risk, in which case the action must be publicly disclosed thereafter together with an explanation of the reasons. In all other circumstances, funds may only be withdrawn from the liquidity pool where the community requires access to the funds and such withdrawal has been approved through a community vote.

7)流动性改善执行操作工具:

Liquidity Improvement Execution Tool

仅允许从国库账户中,使用 CoWSwap 的 TWAP 功能执行,链接为:

Execution shall be permitted exclusively through the treasury account using CoWSwap's TWAP function(Link):

提案-22: 由 Justice 代币驱动和支撑的社区志愿者组织与运营工作机制.

AIP-22: A Community Volunteer Organisation and Operations Mechanism Driven and Supported by \$Justice Token.

1)社区以往的工作一直由部分贡献者义务性付出为主,后续需大量产品开发、运营、社群工作、对外合作等常务性劳务,而且社区中还有很多有各种技能的志愿者愿为社区建设性工作贡献创意和能力,有必要围绕\$Justice 构建链上志愿者奖励体系,增强社区运行动力.

Historically, the community's work has largely relied on the voluntary contributions of a small number of contributors. Going forward, a substantial amount of ongoing work will be required across product development, operations, community management, external partnerships, and other day-to-day activities. At the same time, the community has many volunteers with a wide range of skills who are willing to contribute their ideas, expertise, and capabilities to constructive community initiatives. It is therefore necessary to establish an on-chain volunteer reward system centred around \$Justice, providing stronger incentives for sustained community participation and operations.

2)国库支出的三种类型:

Three categories of treasury expenditure:

(1)志愿者激励支出:

Volunteer Incentive Expenditure:

A、用来激励社区志愿者,非工资属性,来源为国库 LP 每月新增收入累积额的 35%.

Used to incentivise community volunteers; this is not intended to constitute wages or salary-based compensation. Funding shall be sourced from 35% of the cumulative monthly newly generated income from the Treasury LP.

B、激励形式为\$Justice 代币,不能是 ETH 或 USDT 等任何其它形式代币;

Incentives shall be provided exclusively in the form of \$Justice tokens and may not be paid in ETH, USDT, or any other form of token.

C、被激励人员范围:开发人员、UI 美工设计人员、主要社群管理人员、辅助增长人员、官方账号管理人员、提案人员、多签、顾问监督人员等.

Eligible Incentive Recipients: developers, UI and graphic designers, core community managers, community growth support contributors, official account administrators, proposal contributors, multisig signatories, advisors and supervisory personnel, among others.

D、任何人可自愿报名参加志愿者服务,每月所有志愿者团队小组内互评、投票表决评价,无实质性贡献者和投票表决评价排名最后者退出.

Anyone may voluntarily apply to participate in community volunteer activities. Each month, all volunteer team members will conduct peer reviews and vote on contributions within their respective groups. Those who make no substantive contribution, as well as those ranked last in the voting-based evaluation, will be removed from the volunteer programme.

E、采用季度性公开,供社区监督.

Disclosed quarterly for community oversight.

(2)社区运营动态支出:

Dynamic expenditures:

A、日常运营社区内部活动、对外合作、商务、媒体、链上链下活动奖励等,来源为国库 LP 每月新增收入累积额的 65%以内.

Covers day-to-day community operations, internal activities, external partnerships, business development, media relations, on-chain and offline events, and related incentives, funded by up to 65% of the cumulative monthly newly generated income from the Treasury LP.

B、每笔支出必须有合法、完整的链上记录或事务证明性凭证.

Every expenditure must be supported by a valid and complete on-chain record or documentary evidence substantiating the underlying transaction.

C、若责任人从国库申请支出额度后,造成人为丢失,由本人负责赔偿国库.

If the person responsible for an expenditure causes a loss after receiving funds from the Treasury, they shall be personally responsible for reimbursing the Treasury for the resulting loss.

D、采用季度性公开,供社区监督.

Disclosed quarterly for community oversight.

(3)重大支出:

Major expenditures:

A、由国库初始额(已加入 LP 池部分)+国库 LP 新增收入累积额组成,必须社区发布提案,投票通过后才可执行.

Comprising the initial Treasury allocation already contributed to the LP pool, together with the cumulative newly generated income from the Treasury LP, such funds may only be used following the publication of a community proposal and approval through a community vote.

B、主要范围包括,对外投资、社区内部孵化项目、全球性事务的支出,所有支出都必须符合社区新愿景和使命.

The principal areas include external investments, internally incubated community projects, and expenditure relating to global initiatives. All such expenditures must be aligned with the community's new vision and mission.

AssangeDAO is established with Mr Assange's personal authorisation.

2)他已获得自由,并重归公众.

He has gained freedom and returned to the public.

3)若 Assange 先生回归 DAO,本提案代表社区所有持币人承诺:他不必承担具体事务、提案、币价、市值波动产生的任何责任或义务,他不必承担社区运行、发展过程中的任何地域、领域行业范围内的法律法规责任. 但社区任何重大行动、操作、执行,本提案都授予 JulianAssange 先生拥有无任何法律法规风险的监督权、建议权、要求权、一票否决权.

the token price or changes in market capitalisation. Nor shall he bear any legal or regulatory liability, in any jurisdiction or sector, arising from the operation or development of the community.

At the same time, in relation to any major action, decision, operation or execution undertaken by the community, this proposal grants Mr Julian Assange the right to supervise, make recommendations, issue requests and exercise a veto, without assuming any associated legal or regulatory risk.

4)本提案为社区主动性提案,无需 JulianAssange 先生同意,经投票表决后即生效;当本提案通过后,后续社区重大提案,都默认在 3 个自然日的等待时间内,都是 JulianAssange 表达异议权限时间窗口,3 个自然日后无异议表达即默认为同意.

This proposal is a community-initiated proposal and does not require the prior consent of Mr Julian Assange. It shall take effect upon approval through a community vote. Once this proposal has been approved, all subsequent major community proposals shall, by default, be subject to a three-calendar-day waiting period, during which Mr Julian Assange shall have the opportunity to raise any objections. If no objection is expressed within those three calendar days, his silence shall be deemed to constitute consent.

5)待投决议选项(单选):

Proposed Resolution Options(single selection):

(1)同意邀请 JulianAssange 先生担任社区顾问.

Agree to invite Mr Julian Assange to serve as DAO's advisor.

(2)不同意邀请 JulianAssange 先生担任社区顾问

2)共识单元中,JulianAssange 家人@gabrielshipton 先生已担任多重签名,拥有了链上否决权限.

Within the Consensus Unit, Mr Gabriel Shipton, a family member of JulianAssange, already serves as a multisig signatory and holds on-chain veto authority.

3)本提案的目的是改进社区治理效率.

The purpose of this proposal is to improve the efficiency of community governance.

Agree to dissolve the Consensus Unit.

(2)不同意取消共识单元.

Do not agree to dissolve the Consensus Unit.

提案-25: 处理国库 NFT“Clock”

AIP-25: Disposal of the Treasury's "Clock" NFT

1)国库中持有的““Clock””是社区募集资金阶段,支持 JulianAssange 先生获得自由的历史证明.

The “Clock” held in the Treasury serves as a historical record of the community's fundraising efforts in support of Mr Julian Assange's freedom.

2)JulianAssange 先生,当时明确表达过,DAO 要持有部分资金以运营,因此,通过处置该枚 NFT 有望充盈国库.

At the time, Mr Julian Assange explicitly stated that the DAO should retain a portion of the funds for its ongoing operations. Accordingly, the disposal of this NFT could provide a substantial boost to the Treasury.

3)处置国库的 NFT“Clock”时可考虑邀请“Wau Holland“基金会参与拍卖或捐赠.

When disposing of the Treasury's “Clock” NFT, consideration may be given to inviting the Wau Holland Foundation to participate in the auction or to accept it as a donation.

4)本提案若实行,在实行期间,社区可期待 JulianAssange 先生对处置过程发表意见.

If this proposal is implemented, the community may expect Mr Julian Assange to provide his views on the disposal process during its implementation.

5)本提案的实施,是 JulianAssange 先生一直倡导的公平、公正、透明精神的一次实践,也是社区为维护 Julian Assange 先生声誉的实践和努力表达,更是区块链行业加密社区史上唯一一次成功拯救伟大英雄行动的闭环。

The implementation of this proposal represents a practical expression of the principles of fairness, impartiality and transparency that Mr Julian Assange has consistently advocated. It also reflects the community's efforts to uphold and protect Mr Julian Assange's reputation, and serves as the final chapter in what would constitute the only successful effort in the history of the blockchain and crypto community to come full circle in supporting the rescue of a great hero.

6)处置该 NFT 所得资金,进入国库后,继续以兑换成\$Justice 代币的形式,凝聚社区团结效力,支撑社区使命以更多项目开发和产品、活动的形式进行扩展和实践。
