M **mxy** 16:14
You have to pay for court records here

I owe over 100 dollars 16:14

I have to pay that bill before I can get more 16:15

I was banned from the telegram again? WTF
- What did I do? 01:34
- I supported and encouraged... the only thing I argued with was when Gabriel accused me of things but left out information. I added it and let it go, because I don't want to fight 01:35
- B** **bz** 02:12
🙄.....seems the hatred and misunderstanding between you still exist...
- Is there any way to eliminate the misunderstanding? 02:13
Fighting like this is not the right way to solve the problem.
- M** **mxy** 02:13
How could I steal a link/handle the DAO had already lost because it didn't pay its bills? How is it my fault Zylo didn't follow up past a Twitter reply about getting it back, because the bill never got paid.
- I'm not trying to fight. I don't want to fight. I didn't come to fight 02:14

- I agree,that time, Zylo should have been sick and hospitalised.
- M** **mxy** 02:15
He accused me of something. I said what happened. I didn't accuse him of anything. The only person I accused of anything was E, and mentioning the DAO's unpaid bill (with a screenshot showing how the Discord nitro paid)
- In reply to [this message](#) 02:16
I didn't pass judgment on Zylo or say he was bad, just that he didn't follow up 🙄 I tried to defend myself by correcting the record without antagonizing anyone
- The worst thing I did was point out the Assange Campaign's annual meeting is supposed to be on the 30th, and that it missed last year's, because that's part of the missing transparency about the Wau Holland funds 02:17
- For discussion, I tried to ask questions but just support the DAO's decisions and listen to the people there that are smart about this 02:18
- Or maybe because I pointed out the Clock NFT had stopped working for awhile, when someone asked what the value of it was?? 02:26

bz

Every time I jump through the hoops, or take something on the chin, or bite my tongue, I'm banned again anyway 07:47

You asked how I could take the snap shot. I made a wrong turn at Albuquerque. It's an old joke from Bugs Bunny cartoons. He gets somewhere he wasn't supposed to be, gets out a map and says "I knew I shouldn't have made that left at Albuquerque" or something like that

I'm not in the group. => I don't have to be in the group to see it lol

04:58

Even things that I was there for or part of, Amick/E played a role in things in a way I didn't know at the time. 05:04

Like the effect on Zylo/Kelly and his hospitalization and diminished capacity, which played a part in the forums going down, etc. 05:05

05:06

Tendimen is bonkers, you need to do something about them. IDK what but this is bonkers <https://t.me/assangedaochat/313>

There's no way someone should be able to read my article and blame Gabriel or Stella for Amick. 05:07

In reply to [this message](#) 05:10

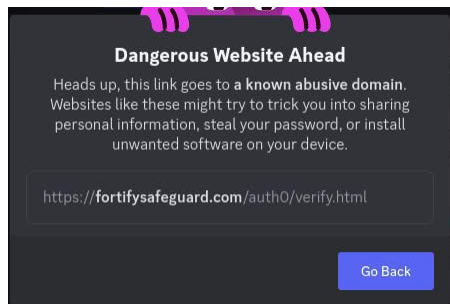

He wouldn't talk to me (fair), so I tried to be respectful about that and just mention it in passing and without getting into details except to say that Amick's version of events about Zylo/Kelly was a conspiracy theory.

- My position on Julian is that I'm glad he's free, no one deserves jail. 00:50
I'm not sure what you're asking. Is Gabriel trying to bring up allegations against Assange, Appelbaum, and Hrafnsson?
- Does he have another story he wants me to tell people now?? 00:51
- I don't know what you are asking about or for 00:52
- Truly, what's the ask? 00:56
- I've said all this before 00:56
- B** **bz** 01:04
I think,maybe you&Gb have many misunderstandings between them?
You kindly provided a lot of historical information, and he also provided some information accusing you of being hostile to Julian or Wikileaks... But what is the truth?
anyway, here is my suggestion: can you discuss i openly and frankly directly in the group? Perhaps, after explaining to each other clearly,can be friends, not enemies.
For the community, the **truth** is the most important thing.
I don't willing to be a referee,that's not what I should/can do 😊
- M** **mxy** 01:06
I'm happy to talk to Gabriel and PT about that stuff in the group, but I don't think they want me too
- But I am not going to you with accusations about them, or with demands 01:06
- People are making accusations, but I am not one of them. I am asking 01:08
people not to make accusations, but to find ways to be productive instead

4 September 2024

 **bz** 01:24
All right,
generally, I never use this method. just to see you being banned frequently,
describe a common phenomenon on the Internet....
follow your heart~

 **mxy** 01:25
They accuse me of infiltrating, I won't make them right

 **bz** 01:29
it's badly...I also feel sorry this situation...

Except for some people who obviously have evil intentions towards the DAO, I generally don't recommend kicking... 01:30

 **mxy** 01:30
I don't think I was being disruptive. I tried to be positive and constructive, I avoid accusations and discouraged others from making them

I tried to focus on what could be done and didn't argue, except to say 01:31
that people showing up in Berlin wouldn't be productive without more info
or more communication first

Even PT agreed with most of the things I was advising 01:31

 **bz** 01:31
but,I can't directly conflict with any other key members - that will cause
greater division and be bad for the DAO as a whole. I hope you
understand.

 **mxy** 01:32
I do, but I think that a desire for "unity" will cripple the DAO and has
already started to

bz

raise and forced unity has let things degrade 01:32

This is my view 01:34

I agree that pointless division would only disrupt things, but pointless unity won't heal them 01:34

I think the reason people are openly talking about overthrowing the DAO's structure is because they see a unified front that won't break or criticize itself - but there is a lot about the history and personal dynamics in the DAO's Chinese community that I don't understand so maybe I am wrong 01:36

 **bz** 01:37
In reply to [this message](#)

Personally, frankly speaking, all parties at present have too many personal intentions and wills. Few people are willing to follow the perspective of process, norms and democracy to solve and do things. In particular, the rights and interests and power of Justice tokens and the holders carrying coins - who are the real owners of the community - have been ignored.

 **mxy** 01:38
They can't even vote

 **bz** 01:39
In reply to [this message](#)

If you are willing to trust me, I would like to explain some inside information to you: 1. Some people seem to be looking forward to a life-saving straw due to long-term suppressed emotions. 2. The other very few (I'm ashamed that they are indeed from the Chinese) have been trying to use obscure means, including incitement and stir-up, to compete for so-called community control and influence.

 **mxy** 01:42
 **Sticker**

 **bz** 01:43
In fact, is there really effective power in this community? Never, only free fatigue, resentment, curse and scolding. If I don't follow for a long time and stay here, the telegram group will be closed and Twitter will be abandoned... So far, every key step successfully implemented by this community has been urged by me: get back 200, issue the NFT whitelist, and reactivate Twitter... So, I don't understand why people always think that there is profitable power in it!

If Julian doesn't get freedom, if the community doesn't exist, will 01:43

bz

-
- M** **mxy** 01:44
But does Wau Holland talk to you?
- B** **bz** 01:47
I don't touch Wau, because I don't have a linguistic advantage.
A while ago, at that critical moment (they quarreled fiercely.), Silk said that she had the advantage of communicating with Wau, so I recognized and was willing to ask her to continue to follow this matter.
- M** **mxy** 01:48
I would trust her to talk to them, too. But then they stopped. I think she must have asked or said something that worried them
- B** **bz** 01:48
I have read the articles you wrote and published on the Internet. In fact, I am the only one who knows the whole process best---from the beginning, except for the founding team formation stage, I have participated in everything in the follow-up... Moreover, many chat records and channels are not made public now.
- In reply to [this message](#) 01:48
maybe, but I don't guess.
- In reply to [this message](#) 01:50
So, no individual, don't trust completely -- the core of blockchain is to de-trust. Including what I said, you don't believe it completely. For the community as a whole, process and norms are the only way out.
